Dear applicant,

It gives me immense pleasure to introduce to you one of the most prestigious medical institutes of the country- Govt. Medical College, Chandigarh. This medical college started in the year 1991 with an intake of 50 students and the foundation stone was laid by the then Prime Minister of India Sh. Chander Shekhar ji. Presently the institute offers undergraduate (MBBS-150), postgraduate (MD/MS-141), superspecialist (DM-7) in Neonatology, Cardiology and Pulmonary Medicine to medical students, and Nursing and Technical courses for other allied health care professionals. It is attached with a 980 bedded tertiary care hospital (Government Medical College & Hospital, GMCH) that provides excellent facilities for training of medical students and for patient care. GMCH is further expanding its scope of services by adding 200 bedded trauma center (under construction) and superspeciality centers like mother & child health care, which are in the final stage of planning

In its comparatively short span of over 33 years, GMCH has consistently been ranked in the top 10 medical colleges of the country by various agencies. This is because of the high quality education that is imparted at this institute. We encourage the students to participate in teaching and research activities through various methods like short term projects, participation in tutorials, symposia etc. Quite a few students have been given scholarships by the Indian Council of Medical Research (ICMR), Govt. of India, for carrying out short term research projects.

In order to have overall development, the institute also provides opportunities to show their talents in cultural, literacy and sports events. These include Plexus (Intra college literary and cultural festival), indoor games, outdoor sports, track and field competitions, Annual day on 9th September and Annual Athletic Meet in the months of February/March every year. The students also organize an inter college sports and cultural festival "EUPHORIA" where more than 1500 students from surrounding colleges participate. GMCH also publishes annual magazine "GLIMPSE" where the literacy talents of students get showcased.

GMCH also provides postgraduate courses (MD/MS-141) in various disciplines of Anatomy, Anesthesiology, Community Medicine, Forensic Medicine, General Surgery, Microbiology, Obstetrics and Gynecology, Ophthalmology, Orthopaedics, Otolaryngology(ENT), General Medicine, Dermatology, Paediatrics, Psychiatry, Pulmonary Medicine, Pathology, Biochemistry, Radiodiagnosis, Radiotherapy and Transfusion Medicine). The postgraduates of this college are well trained and are serving in various prestigious institutions of this country.

Hope to see you developing into wonderful doctors who will care for the ailing humanity.

Hospital Planning & Architectural Design:

The Building of Government Medical College & Hospital, Sector-32, Chandigarh is based upon modern technology and the utilization of the modern approach for the building of any complex, specially a large hospital, the Chief Architect, Chandigarh Administration evolved a new concept based on the modular system with self-contained modules for different functions with vertical and horizontal integration, a central core which will take away the use of unending corridors of the traditional hospital buildings constructed in the past. Hospital building has been constructed with the highest specifications available in the country so that it can be kept hygienically clean and relatively infection free. Crevices, projections and other designs, which can collect dust and cobwebs, have been avoided in the construction. In this first phase, Block-A with approximately 250 beds, emergency areas for various specialties, ICU, operation theatres, private wards and a canteen was constructed. The adjoining partial construction of Block-D, which is a link between Block- A and OPD Block-B was also completed. It was inaugurated in June, 1995, by HE Lt. Gen (Retd.) B K N Chhibber, Governor Punjab & Administrator, UT, Chandigarh. OPD services were started in June, 1995, inpatient admission in May, 1996, and emergency services in March, 1997. In second phase Block-B which is an out-patient block was constructed. Construction work of this block started in the financial year 1993-94. The foundation stone of Block-B was laid by Shri S.B. Chavan, the Union Home Minister. This block was inaugurated by Shri Dalit Ezhilmalai, Union Minister of State for Health & Family Welfare on 22.6.1999. In third phase the construction of the main hospital wing (IPD Block) i.e. Block-C housing laundry, main kitchen, various wards and 14 operation theatres was started in February, 1995. Its foundation stone was laid by Shri Pranab Mukherjee, the Deputy Chairman, Planning Commission and Union Minister for External Affairs. It was inaugurated by Hon'ble Health Minister Dr. Ambumani Ramadoss on 22.09.04. The remaining part of Block-D, (Administrative block), having the departments of Radiodiagnosis, Radiotherapy, Dentistry, Blood Bank, Central Sterile Services Department and the administrative offices of various clinical departments of the Medical College has also been completed. Construction of Block-E i.e. Academic block which housing the pre and para-clinical departments such as Anatomy, Physiology, Biochemistry, Pathology, Microbiology. Pharmacology, Forensic Medicine and Community Medicine was inaugurated by Sh. Rajnath Singh, Hon'ble Union Minister, Govt. of India and has started functioning on 09.09.2016.
