TERMS AND CONDITIONS

1. The authorization and all relevant records shall be produced for inspection on the request of an officer of prescribed authority.
2. The HCF shall dispose of general waste other than bio-medical waste in separate bins.
3. The HCF shall not dispose bio-medical waste with municipal solid waste.
4. The HCF shall provide training to all its health care workers and others, involved in handling of bio medical waste at the time of induction and thereafter at least once every year and the details of training programmes conducted, number of personnel trained and number of personnel not undergone any training shall be provided in the Annual Report.
5. The HCF shall immunise all its health care workers and others, involved in handling of bio-medical waste for protection against diseases including Hepatitis B and Tetanus that are likely to be transmitted by handling of bio-medical waste, in the manner as prescribed in the National Immunisation Policy or the guidelines of the Ministry of Health and Family Welfare issued from time to time.
6. The HCF shall ensure occupational safety of all its health care workers and others involved in handling of biomedical waste by providing appropriate and adequate personal protective equipments.
7. The HCF shall conduct health check up at the time of induction and at least once in a year for all its health care workers and others involved in handling of bio- medical waste and maintain the records for the same.
8. The HCF shall ensure segregation of liquid chemical waste at source and ensure pre-treatment or neutralisation prior to mixing with other effluent generated from health care facilities.
9. The HCF shall ensure treatment and disposal of liquid waste in accordance with the Water (Prevention and Control of Pollution) Act, 1974.
10. The HCF shall maintain and update on day to day basis the bio-medical waste management register and display the monthly record on its website according to the bio-medical waste generated in terms of category and colour coding as specified in Schedule I. All the record shall be subject to inspection and verification by the Prescribed Authority /authorized person at any time. The record shall be maintained for a period of atleast 5 years.
11. The HCF shall report major accidents including accidents caused by fire hazards, blasts during handling of biomedical waste and the remedial action taken and the records relevant thereto, in Form I to the prescribed authority within 24 hours and also along with the annual report (including nil report).
12. The HCF shall submit Annual Report through online portal of cpcc i.e chocmms.nic.in under waste management section as per Rule 13 of the said rules by 30th June every year to be Committee. The HCF shall make available the annual report on its web-site.
13. The HCF shall ensure that Untreated human anatomical waste, animal anatomical waste, soiled waste and, biotechnology waste shall not be stored beyond a period of forty –eight hours: Provided that in case for any reason it becomes necessary to store such waste beyond such a period, the occupier shall take appropriate measures to ensure that the waste does not adversely affect human health and the environment and inform the prescribed authority along with the reasons for doing so.
14. The HCF shall inform the prescribed authority immediately in case the operator of a facility does not collect the bio-medical waste within the intended time or as per the agreed time.

- 422 -
15. The HCF shall establish a system to review and monitor the activities related to bio-medical waste management, either through an existing committee or by forming a new committee and the Committee shall meet once in every six months and the record of the minutes of the meetings of this committee shall be submitted along with the annual report to the prescribed authority.
 16. The HCF is required to set up system/equipments for requisite segregation, collection, storage and pre-treatment of bio-medical waste in conformance to the provisions of Bio-Medical Waste Management Rules, 2016.
 17. The Containers/ Bags used for segregation and disposal of waste shall be labeled in accordance with schedule- IV (Part-A).
 18. The HCF shall segregate the bio-medical waste collected in the container bags at the point of generation in accordance with Schedule-I prior to storage, transportation, treatment and disposal.
 19. The HCF shall hand-over segregated waste as per Schedule-I to Bio-Medical Waste Treatment & Disposal Facility for treatment, processing and final disposal.
 20. The HCF shall ensure treatment and disposal of waste in accordance with Schedule I and in compliance with the standards provided in Schedule-II
 21. The HCF shall phase-out use of mercury based instruments. The handling and disposal of all mercury waste and lead waste shall be in accordance with the respective rules and regulations..
 22. The occupier of the HCF will be liable for action under section 5 and section 15 of the Environment (Protection) Act, 1986, in case of any violation.
 23. The HCF shall comply with the standards and specifications as per Bio-Medical Waste Management Rules, 2016.
 24. The HCF shall give its bio-medical waste only to the authorized bio-medical waste treatment facility who has valid authorization of the prescribed authority.
 25. The HCF will have to make its own arrangement afresh in case the authorization of the BioMedical Waste Treatment & Disposal Facility to whom it has entered a MOU is revoked, by the Prescribed Authority.
 26. The occupier of the HCF, its heirs, legal representatives etc., shall have no claim whatsoever to the continuation or renewal of this authorization after the expiry of the authorization.
 27. The authorized person shall intimate Chandigarh Pollution Control Committee prior to closing down the facility.
 28. The HCF shall not rent, sell, transfer or otherwise transport the bio-medical waste without prior permission from the Board.
 29. Any unauthorized change in personnel/equipment or working conditions as mentioned in the application by the person authorized shall constitute a breach of this authorization.
 30. The Board reserves the right to review, impose additional condition or conditions, revoke, change or alter the terms and conditions of the authorization without any prior notice.
 31. The occupier of the health care facility shall take all precautionary steps to avoid leakage/ spillage of Bio-Medical Waste from the storage area and the storage area shall be properly fenced/ protected with caution sign boards.
 32. The health care facility is required to set up adequate and appropriate equipments for segregation, collection & storage of Bio-Medical Waste in conformance to the provisions of the Bio Medical Waste Management Rules, 2016.
 33. The health care facility shall ensure that notwithstanding anything contained in the Motor Vehicles Act, 1988 or the Rules framed there under, the untreated Bio-Medical Waste shall be transported only in such a vehicle as may be authorized for the purpose by the competent authority as specified by the State Government.

- 423
34. HCF's shall install needle/syringe destroyer in their premises and ensure that the syringes and needles are destroyed/mutilated at source.
 35. No bio-medical waste be disposed off along with solid waste indiscriminately or into the municipal bins and should be kept under supervision till its collection by biomedical waste treatment and disposal facility.
 36. The health care facility shall ensure that no water/ air pollution problem or public nuisance is created in the area due to generation, collection or storage of Bio-Medical Waste.
 37. The Committee reserves the right to revoke this authorization in case the health care facility is found violating any of the conditions of this authorization at any time and/ or the provisions of the Bio-medical Waste Management Rules, 2016 as amended from time to time
 38. The health care facility will ensure that the discharge/emissions of mercury and the solid waste containing this metal due to breakage of thermometer, pressure gauzes and other measuring equipments are collected, stored and sent back to the manufacturer and will take appropriate measures to ensure that this spilled mercury does not become part of bio-medical waste and other solid waste generated from the institution. Further, in case its concentration in waste is 50 ppm or Page 4 of 4 more then it is required to be disposed off as per the provisions of Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 as amended from time to time.
 39. The hospital shall ensure that the Bio-Medical Waste is transported from Health Care Establishments within 24 hours during hot & humid climate or Health Care Establishments should store the Bio-Medical Waste in cold containers till is transported by Bio-Medical Waste Treatment & Disposal Facility during this hot and humid climate.
 40. The hospital shall provide adequate Effluent Treatment Plant (ETP) for the treatment of effluent generated from its premises.
 41. The hospital shall renew its Agreement with Bio-Medical Waste Treatment & Disposal Facility before its expiry.
 42. The HCF shall provide common storage room for the storage of BMW generated from its premises before its final disposal of the facility.
