Slide 6 of 6 Default Design

This image shows a digital slide viewer interface, likely from the software 'Ovation'. The main window displays a histological section of prostate tissue. The word 'PROSTATE' is printed in the upper left corner of the image. Three prominent, pale, circular structures are labeled with the letter 'P'. The surrounding tissue is stained in shades of pink and purple, with darker areas representing nuclei and stroma. To the left of the main image, a vertical list shows six numbered thumbnails, each representing a different histological slide. The interface also features a standard menu bar at the top with options like File, Edit, View, Insert, Format, Tools, Slide Show, Window, and Help. A search bar at the top right says 'Type a question for h'. A toolbar at the bottom includes icons for drawing, shapes, and other presentation tools. The bottom status bar indicates 'Slide 6 of 6' and 'Default Design'.
